

FARGO® DTC400 CARD IDENTITY SYSTEM

CREATE SECURE CARDS WITH ONE SIMPLE AND VERSATILE SYSTEM.

The unbelievably easy way to design, print and encode secure ID cards.

This DTC400 Card Identity System includes everything you need to create secure cards. Its simplicity and versatility make it an excellent choice for small- to mid-sized corporations, K-12 schools, as well as local and state government agencies and public safety departments. Fargo system experts have already done the matched-system work for you. They've pre-configured the best-in-class hardware and software components and made sure everything works together. All you have to do is make cards.

A simple, out-of-the-box system that starts here. And expands anywhere.

Right out of the box, you'll be ready to design and produce secure ID cards. This DTC400 system is as flexible as it is capable. Its compact, modular design allows the system to expand when your needs do. This versatility allows you to:

- Add functionality to your cards with optional magnetic stripe encoding module.
- Add more information or graphics to the backside of your cards with the optional dual-sided printing module.
- Add card security and prestige, with holographic Visual Security Solutions.™

For a simple, secure and versatile solution that's ready right out of the box, choose the DTC400 Card Identity System.
