Facility Code _____

(Custom Formats) Site Code _____ City Code _____ OEM Code _____

Internal Tag No. Start _____ Stop _____

External Tag No. Start _____ Stop _____

Special Instructions: _____

¹ For new artwork files, contact Customer Service for custom artwork number, lead-times, minimum order quantities, and cost.

² The external tag number is placed on the back of the tag.

³ The MicroProx Tag is not for use on cards that use full insertion or tractor feed type readers.

Do not adhere to metal surfaces. Metal shields the RF, making the tag inoperable. Due to variations in cards and reading devices, HID does not claim that the MicroProx Tag will work in every situation. Functional and non-functional MicroProx Tags are available for compatibility testing with existing credential and reader technologies. Compatibility should be confirmed prior to ordering.

MicroProx Placement
